

**...don't compromise**

## **Our Environmental Policy**

Pukka Pies ensures Environmental considerations are an integral part of company policy. The Company and its Directors are committed to continual improvement of an environmentally friendly business policy.

In terms of environmental issues, Pukka Pies considers and acts on global green points that include: energy efficiency, waste recycling and emissions, but also on the direct working environment of its employees, which we want to be safe, comfortable and welcoming.

Pukka Pies has developed its specialist knowledge and expertise during nearly 50 years of making savoury pies & pasties and is constantly looking to exceed best practice on environmental issues.

- Recycling – wood, plastic, foil, paper, cardboard, cling film, metal, steel tins, drink cans light bulbs and ink cartridges.
- Compliance with environmental legislation.
- Encouraging awareness of environmental issues amongst its workforce.
- Using goods, water and energy efficiently.
- Monitoring and controlling emissions.
- Taking environmental issues into consideration when designing new business strategies, products, packaging, equipment and buildings.
- Enlisting support from suppliers on environmental issues.
- Sourcing products locally wherever feasible.
- Policy of recruiting locally – reducing fuel usage.
- Efficient use of up-to-date delivery vehicles to minimise fuel usage and impact on the environment.
- Minimising production waste/rejects and minimising waste disposal.
